ANSTON STONE, used for Building the New Houses of Parliament.—W. WRIGHT and Co. beg to inform Architects, Engineers, Builders, and others, the Anston Stone can be supplied in any quantity on the shortest notice. This valuable stone, so celebrated for its durability, colour, and texture, is well known, having been selected in preference to all others, by the Commissioners of Woods and Forests, for building the New Houses of Parliament. It is very superior for Monuments, Tombs, &c. &c.

W. Wright and Co. have made arrangements to have a stock always on hand at Brine's Marble and Stone Wharf, Horsefall-basin, Maiden-lane, King's-cross.—Any further information can be obtained on application to W. WRIGHT and Co., Anston, near Sheffield; or to T. SHARP, their Sole Agent in London, 17, Burton-crescent.

NOTICE to PURCHASERS of CAEN STONE.

Translation of a CERTIFICATE from the Mayor of Allemagne, Department of Calvados, Normandy, relative to the propriety of the Caen Stone Quarries:—

"I, the Mayor of Allemagne, Department of Calvados, undersigned, do hereby certify to all who are interested in it, that it is an error and gross falsehood, as certain persons have reported, 'That the quarries of Allemagne belong to, and are leased from, the Government of France, and the local authorities of the Department of Calvados.' Neither the one or the other have any right or interest whatsoever in the said land or quarries.

"I hereby further certify, that the greater part of these quarries are worked by Messrs. Luard and Company, who are the principal proprietors, and Mons. Jobert, who is also a proprietor; the remainder are worked by smaller quarrymen of the neighbourhood, who sell their produce to certain dealers for exportation to England as it is required.

"Executed at Allemagne, this 26th May, 1849.

J. Buisson
Maire

Translation attested by F. Harris, Esq., C.E., &c., Symonds Inn, Chancery-lane.

N.B. The French manuscript may be seen by permission in writing at the offices of Messrs. LUARD, BEEDHAM and Co. Copies supplied of this upon application.

CAEN and AUBIGNY STONE.—LUARD, BEEDHAM, and Co. beg respectfully to recommend purchasers of Caen stone to require a guarantee of those who profess to be "quarry proprietors" and importers, that they are selling only such Caen stone as is suitable for EXTERNAL WORKS,—this being the only way by which architects and builders can be safe from the recurrence of certain failure, by its indiscriminate use. It is now generally known that the bottom beds in the Caen quarries, as well as in the Portland, are only fit for inside purposes.

L. B. and Co. continue their efforts to maintain the character of their Caen stone, by careful selection, and can afford to behold without alarm the absurd, false, and futile effusions of weak-minded competitors.

L. B. and Co. have a large seasoned stock of Caen and Aubigny stone at their general depôt at Caen Wharf, Rotherhithe, Vauxhall-bridge, Millbank, Battle-bridge, Paddington, and Kensington Basins.

Shipments direct from the quarries to any port in the United Kingdom.—Offices, 13, Southwark-square, Borough, and 179, Rotherhithe-street.

CAEN STONE, from the first Quarries of Allemagne. Depôt at the Whitby and Scotch Wharf, 14, Fore-street, Limehouse.—P. FOUCARD, quai des Abattoirs, Caen, propriétaire de Carrières à Allemagne, begs leave to inform Builders, Architects, and others, that he has, on the above-mentioned wharf, the best stone ready to meet the demands of purchasers.—Contracts taken for any quantities.—Orders received by Mr. BASCHET, at 10, Stoney-street, Borough Market.—Cargoes shipped to order, from Caen, to any port.

PIMLICO SLATE WORKS.—GREAT REDUCTION in the PRICE of SLATE.—Mr. MAGNUS has the pleasure to publish the following reduced prices for Welsh Slate Slabs of the finest quality, with sawn edges, and planed both faces:—

	Thick.						
	½in.	¾in.	1 in.	1¼in.	1½in.	2in.	
	d.	d.	d.	d.	d.	d.	
Under 4 ft. long, or 2 ft. wide	3½	5	6	7	9	12	⅌ ft. sup.
Ditto 5 ft. do., or 2 ft. do.	4	5½	7	8	10	14	do.
Ditto 6 ft. do., or 3 ft. do.	4½	6½	8	9	10½	16	do.
Ditto 7 ft. do., or 3 ft. do.	5	7	9	10	11	18	do.

Larger slabs in proportion.

	Thick.						
	½in.	¾in.	1 in.	1¼in.	1½in.	2in.	
	d.	d.	d.	d.	d.	d.	
Cutting to order	1	1	1½	1½	2½	3	⅌ ft. sup.

FURTHER REDUCTION IN THE PRICE OF CISTERNS.

Cisterns above 100 gallons, planed both faces, inch thick, grooved and bolted, 1s. only per foot super., or 3s. per foot cube (outside dimensions). Fixing within five miles of the manufactory, 3d. per foot super., or 6d. per foot cube. Enamelled bored Chimney-pieces, variously marbled, hitherto priced at 40s. to 50s. now reduced to 30s. and 40s. The above prices are all net to the trade.

Mr. Magnus will send his book of Drawings of Chimney-pieces, and printed price list of ditto, free to any part of the country, on receipt of 1s. in postage stamps (to be deducted from first order received), and which will be subject to a very liberal discount to the trade.—Address, 39, Upper Belgrave-place, Pimlico.

SAMUEL CUNDY, Mason and Builder, PIMLICO MARBLE and STONE WORKS, Belgrave Wharf, Pimlico, begs to inform ARCHITECTS and the PUBLIC that he has availed himself of improvements in his MACHINERY, by means of which he is enabled to produce GOTHIC WINDOWS, MOULDINGS, PANNELS, &c. &c., at a very cheap rate, out of a superior stone from the west of England, as durable as any soft stone, and particularly sound.

S. C. has an economical method of dressing the above stone over, which produces, by the action of the atmosphere, a surface of crystalline hardness, and improves the colour.

FONTS from 3l. upwards. Specimens on view of the various styles.

First-rate ARTISTS retained for SCULPTURED and CARVED Works.

Vein Marble Chimney-pieces, of the best quality of material and workmanship, by improved machinery ... 40s.
Stone ditto, from ... 8s.

A variety on view in stock.

MEMORIAL CROSSES, MONUMENTS, TOMBS, HEAD-STONES, &c., in great variety of design.

RESTORATION of CHURCHES. SAMUEL CUNDY having had much practice in this branch, is desirous of Estimating for Restorations.

CLERKS of WORKS have their particular attention called to the above establishment. Coats of Arms, Decorated Pannels, and other enriched works, promptly executed.

Every description of Stone or Granite work prepared, ready for fixing.—Delivered at the various Railways, and carefully packed in trucks.—Pimlico Marble and Stone Works, Belgrave Wharf, Pimlico.

PAVING, 2s. 9d. PER SQUARE YARD. Basements, Foot-walks, Malt-houses, Corn Stores, Floors of Warehouses, and every description of Pavement laid down at the above low price, and the work guaranteed.—Apply to JOHN PILKINGTON, POLONCEAU'S BITUMEN PAVEMENT OFFICE, 4, JOHN-STREET, ADELPHI.—N.B. Country Agents and Railway Engineers and Contractors supplied with the best bitumen for covering bridges and arches.

STIRLING'S BELVEDERE SLATE WORKS, Belvedere-road, Lambeth.—A reduced list of prices of the best WELCH SLATE SLABS, planed both faces, will be sent on application (post paid) being made, and inclosing a postage stamp. The prices are under those advertised for inferior slates.

MARKET WHARF, REGENT'S-PARK BASIN.—Messrs. MARTIN and WOOD (late Scoles and Martin) solicit the attention of Builders, Masons, and others, to their stock of Portland, York, and Derby Stone; also Bangor Slates, Lime, Cement, Plaster, Bricks, Tiles, Laths, Fire-goods, Fire-stone, &c., sold at the lowest possible prices for Cash. Portland Head-stones, Ledgers, Steps, Landings, &c., cut to order on the shortest notice. Tarpaulings let on hire. A Stock of Northen's Drain Pipes, Syphons, &c., always on hand. Mortar, Lime and Hair, Fine Stuff, &c.

BATH STONE.—RANDELL and SAUNDERS, QUARRYMEN and STONE MERCHANTS. The most approved kinds of Bath Freestone supplied to all parts of the kingdom. Depôts at the Great Western Railway Stations, PADDINGTON, CORSHAM, BOX, BATH, and BRISTOL.—R. and S. particularly invite the attention of Architects and Builders to their Corsham Down Stone, which is strong and sound in quality, is of beautiful colour and texture, and works much cheaper than any other stone. Prices, with cost of carriage to any locality specified, furnished on application to Randell and Saunders, 14, Orange Grove, Bath.

BOX FREESTONE QUARRIES.—T. STRONG begs to invite the attention of Architects, Builders, &c., to his extensive STOCK of excellent FREESTONE. His groundstone stands unrivalled for all external purposes, for durability, colour, and texture, as the many mansions which have for centuries past been built of it, fully testify. His scallett stone is of a beautifully fine texture, for interior purposes, and all ornamental work. T. Strong has been making preparations for supplying on the most extensive scale, and thinks a visit to his quarries would well repay the trouble of those requiring freestone, and who would find it a considerable saving to have it direct from the Box Station per Great Western Railway, where a large supply is always kept. Plain and ornamental stonework prepared to order. Ashlar, range work, walling stones, &c., always on sale.

ROMAN CEMENT, made according to the specification of Parker's Patent, may be had genuine of J. M. BLASHFIELD (late Wyatt, Parker, and Co.), Waterloo Dock Wharf, Commercial-road, Lambeth, No. 1, Irongate Wharf, Paddington, and at the Manufactory, Mill Wall, Poplar. Also Plaster, Mastic, Tarras, Bricks, Tiles, &c.

VEINED AND SICILIAN MARBLE

in Scantlings and Slabs of the first quality, just imported.

PARIAN CEMENT, for internal stucco, instead of common plastering, may be painted and papered within twenty hours of its application to the bare walls, and by the use of which, rooms may be rendered habitable before the materials commonly adopted would begin to dry. It is worked without the slightest difficulty, the labour being easier and less expensive than with any other stucco whatever. A finer quality is also prepared for ornamental plastering, for encaustic painting, &c. &c.—Specimens of which may be seen at the works of the Patentees, CHAS. FRANCIS and SONS, Nine Elms, London.

KEENE'S PATENT MARBLE CEMENT forms an exceedingly hard and indestructible Stucco, which may either be prepared for paint, or finished in imitation of stone, by the addition of Portland or other stone dust.

It is a cheap and efficient substitute in place of wood for skirting, architrave, and other mouldings, in its application for which purpose it checks the progress of Fire and the attacks of Vermin.

Patentees and sole Manufacturers, J. B. WHITE and SONS, Millbank-street, Westminster, and Seel-street, Liverpool.

PORTLAND CEMENT, as manufactured by J. B. WHITE and SONS, possesses all the properties of the best Roman Cement, but has the advantage over that material of wholly resisting frost; and when used as a stucco it does not vegetate or turn green in damp situations, and requires no colouring. Employed as an hydraulic mortar for brickwork, it carries four to five measures of sand to one of cement, and is proved by trial to become harder and stronger in these proportions than Roman Cement with but one measure of sand. This superior connecting power, combined with its eminently hydraulic properties, point it out as the fittest material for building sea and embankment walls, the lining of reservoirs, cisterns, and baths, and for all those purposes where strength and a perfect resistance to water are required.

Manufacturers—J. B. WHITE and SON, Millbank-street, Westminster, and 36, Seel-street, Liverpool.

PORTLAND CEMENT, solely MANUFACTURED by WILLIAM ASPDIN, Son of the Patentee.—Messrs. ROBINS, ASPDIN, and Co. request reference to No. 296, page 491; and also Nos. 324 and 325, pages 343 and 351 of "The Builder," for accounts of EXPERIMENTS on the strength of Portland Cements, whereby the great superiority of their Cement is manifest. This Cement has been proved for upwards of twenty years in the Thames Tunnel to resist the action of water; it is stronger in its cementitious qualities, harder, and more durable than any other description of Cement; it does not vegetate, oxydate, or turn green; nor is it affected by any atmospheric influence whatever the climate, resisting alike the action of frost and heat. It is manufactured to set in from five to sixty minutes. For all purposes that Cement is applicable the Proprietors challenge competition.—Orders received by Messrs. ROBINS, ASPDIN, and Company, at their Manufactory, Northfleet, Kent, and their Wharf, Great Scotland-yard, Whitehall; also by their Agent at the Depôt, 1, Back Goree, Liverpool.

MARTIN'S PATENT FIRE-PROOF and ORNAMENTAL CEMENT.—REDUCTION of PRICE.—The Patentees beg to inform their Friends and the Public that they have made arrangements which enable them to offer this invaluable cement at a considerably reduced price. It has now been before the public so many years, and has obtained so high a standing in the estimation of all who have used it, that it is unnecessary to comment on its merits. The Patentees, however, feel called upon to observe, that by its use—from the greater amount of surface which a given quantity will cover, and the small amount of labour required in working it, a saving of 25 to 30 per cent. is effected as compared with other cements for internal use. Specimens shewing its beauty, hardness, and applicability to all plain and ornamental purposes, may be seen; and the Cement in any quantity obtained of the Patentees, Messrs. STEVENS and SON, at their Plaster and Cement Works, 186, Drury-lane, London.—Agent for Liverpool,

Mr. GEORGE NEWTON, No. 6, Lawton-street, Bold-street.

JOHN'S and Co. PATENT STUCCO CEMENT and PAINT.—GREAT REDUCTION of PRICE.—The Patentees beg to inform the trade and the public generally, that in order to induce a more extended adoption of these excellent materials, and to bring them into direct competition with the inferior articles in common use, they have determined to reduce the price nearly 25 per cent., confidently trusting to a mutually advantageous result. These materials, for their beauty, durability, imperviousness, perfect resistance to frost or heat, and great cheapness, fully justify the confidence reposed in them, as shown by numerous testimonials. For INTERIOR SURFACES this cement possesses the following remarkable properties; having no caustic qualities, it may be painted on or papered within a few days after its application, and a new house may thus be rendered habitable without any delay. It never blisters, cracks, or vegetates; very soon becomes as hard as stone, and may be cleaned with a brush and water.—Prospectuses, specimens, and every information connected with its use, price, &c., may be obtained from the sole agent, PHILIP HARE, at the Warehouse, 23, Steel-yard, Upper Thames-street.

TO PLASTERERS, BUILDERS, &c.

JOHN'S and Co. PATENT PERMANENT STUCCO WASH.—The attention of the trade is requested to this permanent wash, which cannot be equalled in its properties of beauty and durability for exterior stucco or brick, and being a non-absorbent, is admirably adapted for interior surfaces, for railway stations, union workhouses, schools, asylums, barracks, stables, prisons, &c. It will not wash off, may be tinted to any colour, and 1 cwt. will cover 300 yards.—Price 10s. per cwt. Sole agent, PHILIP HARE, 23, Steel-yard, Upper Thames-street.

LAP WELDED IRON TUBES.—W. H. RICHARDSON, Jun., and Co., MANUFACTURERS of every description of WROUGHT IRON TUBES for Locomotive and Marine Boilers, Gas, Steam, and other purposes.

PATENT TUBE WORKS, DARLASTON, STAFFORDSHIRE.

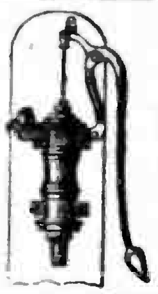
CAST-IRON PIPES, IRON WORK FOR OVENS, &c.

RAIN PIPES, &c.—F. A. TIDDEMAN, St. Ann's Wharf, Earl-street, City, near Blackfriars-bridge, keeps a large stock of Rain Pipes, Heads, Shoes, Elbows, &c., half round and O. G. Gutters, Socket Pipes for Water or Gas, Flanch Pipes, Sash Weights, and other Castings; Iron Work for Baker's Ovens of every description, fitted complete, to be had in sets or in parts.—Prices equal to all competition. Contracts taken to any extent.

TO ARCHITECTS, BUILDERS, AND BRICK-MAKERS.

PUMPS of Superior CONSTRUCTION, bored perfectly true by improved machinery, in various plain and ornamental patterns for Conservatories, Squares, Market Places, Roads, Gardens, and for Liquid Manure. BRICK-MAKERS' PUMPS, in Wrought and Cast Iron, HYDRAULIC LIFT PUMPS, and ENGINES for Wells of any depth. SINGLE and DOUBLE PUMPS up to twelve-inch bore, kept for Hire.

BENJ. FOWLER (late of 63, Dorset-street), removed to the new Factory, Whitefriars-street, Fleet-street.



TO BUILDERS AND PLUMBERS.

THE attention of the Trade is called to

JOHN WARNER & SONS'
PATENT VIBRATING
STANDARD PUMP,

which is recommended for the simplicity of its construction, and the ease with which it works.

By the introduction of the vibrating standard the cumbrous carriage and expensive slings and guides are unnecessary, rendering the price considerably less than pumps made on the old plan.

Beer and Water Engines for raising fluids from a depth not exceeding 28 feet; also, Garden Engines constructed on the same principle.

JOHN WARNER & SONS,
8, Crescent, Jewin-street, London,
Manufacturers and Patentees.

TO PUMP, GARDEN, and BEER- ENGINE MAKERS.—LICENSES for the manufacture of JOHN WARNER and SONS' Patent Vibrating Standard Pumps and Engines may be obtained at their Manufactory, No. 8, Crescent, Jewin-street, London.

GLAZED STONE WARE DRAIN PIPES.—TURNER and MOUNTAGUE, Leigh, near Southend, Essex, manufacturers of stone ware drain pipes and drain tiles. Drain pipes and tiles to any pattern.—Orders received at, and executed from Harrow-bridge Wharf, Stratford, Essex; Falcon Wharf, 80, Bankside, Blackfriars; and at their Cement Works, Orchard House, Blackwall.

TO DRAIN-PIPE AND STONE POTTERS.

DUGGAN and Co., in conjunction with Messrs. WHITEWAY, WATTS, and Co., have opened their extensive works in Devonshire, and have now cut a large quantity of very superior drain pipe-clay, for the manufacturing of drain-pipes.

D. and Co. have supplied Messrs. Green, Northern, Stiff, Smith, and Bullock, of Vauxhall and Lambeth, with Clay, which is highly approved of, and produces a very superior article.—All orders received will be immediately attended to.—Chamberlain's Wharf, Tooley-street, Southwark.

TO PLUMBERS, BUILDERS, AND ENGINEERS.

CHEAPEST HOUSE IN LONDON for every description of best Town-made Brass and Copper Work.

PAN CLOSETS complete, with WHITE BASIN, 27s.—3-inch Lift Pumps, 63s.; 3½ in. 73s.; 4 in. 87s. 6d. Cocks: ½ in. 1s. 6d.; 3-8th in. 2s.; ¾ in. 2s. 6d. Copper Pipes, per foot: 1 in. 10d.; 1¼ in. 1s.; 1½ in. 1s. 3d.; 2 in. 1s. 6d.

Gun Metal Steam Cocks, Safety Valves, Steam and Water Indicators, &c., equally low at A. McGLASHAN'S, 16, Long-acre, and Hart-street, Covent Garden.

IMPORTANT IMPROVEMENT in WATER-CLOSETS.—This is not only the cheapest and most simple arrangement yet introduced, but is warranted to be most effective and durable. The whole apparatus, viz., the basin and trap, with a patent self-acting valve and pipe fitted thereto, is complete in itself. No service-box, valve, D trap, cranks, or wires are required, consequently the cost of fixing is trifling.

The price, either with Enamelled Iron or White Porcelain Basin, is, complete with trap and valve . . . . . . 30s.
With Blue ditto ditto . . . . . . 35s.

Manufactured only by the Patentees—
THOMAS LAMBERT and SON,
Corner of Short-street, New-cut, Lambeth; where also may be had, their Flexible Diaphragm Ball Cocks and High-pressure Stop and Bib Cocks.

SANITARY IMPROVEMENT.—Perfect freedom from Stench or Noxious Vapours arising from Sewers, Drains, &c., is insured by the use of

BUNNETT'S
PATENT SELF-ACTING EFFLUVIA TRAPS.

Adapted for Streets, Public Buildings, Dwelling Houses, Factories, Stables, &c.

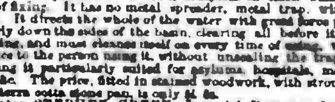
The above most important improvement has been extensively tried in the City, and many large provincial towns, with perfect success. They are cheap, durable, perfectly SELF-ACTING and SELF-CLEANSING, and cannot get out of order. Manufactured in various sizes, to suit all purposes, by BUNNETT and Co., ENGINEERS, 26, Lombard-street, London (where specimens may be seen in action), and at the Works, Deptford, Kent.

INVENTORS AND PATENTEES OF SELF-ACTING
(DOUBLY TRAPPED)
PAN AND VALVE WATER-CLOSETS;

(A most successful combination of the above principle, with other patented improvements.)

IMPORTANT to the SANITARY MOVEMENT.—PATENT FLUSHING SYPHON BASIN and SELF-ACTING CLOSET CONNECTION.—It is admitted by all, that nothing is more wanted than a trapped water closet, simple, cheap, and effective. The above invention will be found to combine these qualifications. It is complete in itself without expense of fixing. It has no metal spreader, metal trap, wires, or cranks. It directs the whole of the water with great force perpendicularly down the sides of the basin, clearing all before it. It is self-acting, and must cleanse itself on every time of using, without reference to the person using it, without unsealing the trap, thus rendering it particularly suited for asylums, hospitals, manufactories, &c. The price, fitted in stained woodwork, with strong well-glazed terra cotta stone pan, is only 2l. 2s.

Patentee, STEPHEN GREEN, Imperial Potteries, Lambeth, where architects, builders, and the public can inspect his invention in use. Also may be seen his



CELEBRATED TERRA COTTA STONE GLASS LINED DRAIN PIPES,

so highly approved and extensively used by her Majesty's Commissioners of Woods and Forests and the Metropolitan Commissioners of Sewers. Prices the same as common stone-ware.

For drawings and explanation see "The Builder" of January 20th, and March 31st, 1849.
